**Second Draft Call for 1200 Men Is Sent Out;
 Examinations To Be Held Here Friday**

Notices were mailed out of Tombstone yesterday for the second call of Cochise county men to appear before the examining board under the provisions of the selective draft law. Twelve hundred men will be called in this lot and the examining board will be in session in this city on Friday, August 17. The board will be at the Y. M. C. A. at 8 a. m. and expects to examine the majority of the men from the Warren district during the day. They will be in Douglas on Saturday morning and in Tombstone on Monday. Those who do not report on Friday and Saturday will have to go to Tombstone on Monday. The board has requested that as many volunteers as possible show up and assist them. They ask that as many of those who helped at the last examinations in this city again display their loyalty by again reporting Friday. This not only applies to the clerks but to the doctors. By this help the board expects to make greater headway, as the men having had experience will do the work more rapidly. This does not exclude others from offering their services, however.

The large number included in the second call was made necessary on account of the large number of aliens that were drafted, the number of exemptions claimed and the large number that failed to show up. Out of the first call there have been up to date 198 actually excepted. The board yesterday in Tombstone concluded the examination of the 461 that claimed exemptions and under the instructions sent out had to grant the requests of all but 24, which were denied. About 110 more will be contested by Acting County Attorney Bruce Stephenson, so that this number will have to be acted upon by the appeal board in Tucson. With the 24 exceptions denied yesterday, Cochise county will have a quota of 222 out of 1328 that were called for the first examination. This will just about meet the first 30 per cent that has been called for duty to report on September 5. If the same ratio continues it will take all of the drafted men on Cochise county's roll of 6750 to fill the required number of 674, that is, to have the number and the alternates.

The names of the first 400 of the 1200 called are printed below in the order in which they will report for examination. The balance of the names will be printed in the Thursday and Friday issues, 400 on each day.
