Note: Where a letter was not legible, the letter is represented by a question mark. The only change made to the names were to arrange all of them last name, first name. The original article had names in both first name, last name and last name, first name. No changes were made to the name spellings (there may be obvious errors).

**REVIEW'S LIST OF FIRST 1400 COCHISE
 COUNTY MEN WHO WILL GO TO FRONT**

After many hours of steady labor the Review is able to present to its readers, this morning, the first 1,400 numbers drawn in the national draft. All day yesterday and last evening they were posted. Barring possible error in transmission by telegraph and in composition they are correct.

It is understood that Cochise county's quota will be in the neighborhood of 775. This figure has not been fixed, absolutely, however. If the above figure is correct or nearly so the names and numbers printed below will about cover the first quota called to fill up the first army to be drafted.

The balance of the numbers, up to and including the last in the county, 6,750, were coming during the night and some were taken down. As interest is chiefly centered in the first contingent those only were published. The balance will have to be secured from Tombstone.

The names are printed in the exact order drawn. The first man to be drawn will be the first to report to the exemption board, and so on until the full quota is made up.

Out of the first twenty numbers drawn, the following in Cochise county have been called:
